**INTERNATIONAL**
Scientific Indexing

Respected Publisher

We hope you are fine and doing well. As your journal **INDIAN JOURNAL OF NATURAL SCIENCES** is added with International Scientific Indexing (ISI), now we have calculated the impact Factor values for all added and approved journals.

ISI calculate Journal Impact factor based on International citation report (ICR). Your Journal **INDIAN JOURNAL OF NATURAL SCIENCES** is (impact Factor) **1.233** for the year 2014.

Why your journal need an impact factor Value from ISI?

1. To Increase no of Authors to your journal.
2. To Increase the publication rate and your publication fee.
3. To Increase Scientific Rush to your Site.
4. To increase the visibility of your journal.
5. To Increase the Acceptance rate for your papers acceptance from your authors.
6. To Increase the acceptance rate from universities all over the world.
7. To Attract and Retain Authors to your journal for future publications.
8. To Grow more fast with ISI Impact Factor Stamp.
9. To Enrich your articles citation through ICR of ISI.
10. To compete in competitive market of Open Access competition.

The above Impact Factor Value will be mentioned at our website if you will complete the process of ICR.
